OBJECTIVE

Computer Science undergraduate with strong fundamentals in object-oriented programming and backend development. Familiar with Java, Python, REST APIs, and SQL, and eager to build practical, real-world applications.

EDUCATION

Bachelor of Technology, Computer Science

APJ Abdul Kalam Technological University

Expected 2026

SKILLS

Technical Skills Python, Java(basics), FastAPI, REST APIs, SQL, OOP ,
Power BI, Data Cleaning, HTML, CSS

Soft Skills Teamwork, Problem Solving, Communication Skills

DevOps Docker, GitHub Actions(CI/CD pipelines)

PROJECTS

Notes API: Developed a CRUD API for managing notes using FastAPI. Containerized the application with Docker and configured GitHub Actions to automate Docker builds, ensuring continuous integration and deployment. Implemented endpoints for creating, reading, updating, and deleting notes, along with health checks for reliability.

Backend Project (CI/CD & Automation): Built a small backend application with basic automated testing and deployment workflows to practice coding reliability. Created simple endpoints and health checks to understand backend functionality.

Vantage-A Real-Time Geolocation Framework for Excursions Safety: Built a web application for real-time location tracking and coordination in large group excursions, focusing on usability, live updates, and improved group safety.

Item sales dashboard (Power BI): Built an interactive sales analytics dashboard using Power BI. Cleaned and transformed raw sales data using Power Query, created key metrics and KPIs using DAX, and designed visuals with filters and slicers to analyze sales performance across regions, products, and time.

Voice Virtual Assistant with ElevenLabs: Created a voice-enabled AI assistant using the ElevenLabs platform, integrating APIs for reminders, information retrieval, and smart device control, while optimizing language, tone, and speech speed for natural and seamless voice interaction.

Discord Bot: Developed an interactive Discord bot with command handling and automation features, improving engagement in community servers.

EXTRA-CURRICULAR ACTIVITIES

- Active participant in [IEEE](#) and [Mulearn](#) communities
- Published a paper: "Price Panda: An Online Comparison Application" in IRJMETS

CERTIFICATES

- [CS50X](#)

DECLARATION

I hereby declare that the information provided in this document is true to the best of my knowledge and belief.
